“I know that the school had a reputation for fostering a collaborative, liberal environment, and it’s my research. I found a number of independent test takers from Emory Law LLM graduates, including an English Language Specialist. For international students coming to the US for the first time, a foundation program is held in July to help you adjust to the new environment and practice the English language skills needed for American law classes. Additionally, LLM students have full access to our Center for Professional Development and Career Strategy and the Emory Library system, which has more than 4.6 million print and electronic volumes."
